

# WHY A WAVEPIERCER?

- **LESS motion sickness**
- **SMOOTHER Ride - less pounding**
- **Greatly INCREASED SPEED**
- **More fuel efficient - ENVIRONMENTALLY FRIENDLY**
- **Greater Range - ACCESS MORE northern and outer REEFS**
- **More SPACIOUS - table seating for all passengers**
- **More COMFORTABLE - fully equipped with latest modern conveniences**
- **QUIETER - more sound proofed and less engine noise**
- **MORE TIME AT THE REEF - greatly reduced travel times**

The objectives of this boat design were to build the most efficient, fastest vessel with good economy, manoeuvrability and first class passenger comfort. Utilising the very latest "cutting edge" wavepiercing technology these objectives can easily be met in the roughest seas and with minimal environmental impact.
